

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product Name: MFA OIL PREM HD

Product Code: SAE 10W - FA051022, FA051030, FA051055, DSL00001; SAE 20W20 - FA052022, FA052055, DSL00014

SAE 30 - FA0530PL, FA053022, FA053030, FA053055, DSL00009; SAE 40 - FA054022, FA054055, DSL00013

SAE 50 - FA055022, FA055055, DSL00015

1.2. Relevant identified uses of the substance or mixture and uses advised against

Recommended use: Motor Oil
Recommended Not applicable

restrictions:

1.3. Details of the supplier of the safety data sheet

Manufacturer: MFA Oil Company

One Ray Young Drive Columbia, MO 65201

Information Phone:

(800) 827-0116 sds@wd-wpp.com

E-mail: sds@v

1.4. Emergency telephone number

Emergency phone number: CHEMTREC: +1 (800) 424-9300

International: +01 (703) 527-3887

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Not classified under GHS

2.2. Label elements

2.3. Other hazards

Hazards not otherwise Avoid prolonged or repeated contact with used motor oil. Used motor oil has been shown to cause

classified: skin cancer in laboratory animals.

Unknown acute toxicity (GHS-US)

SECTION 3: Composition/information on ingredients

Chemical Name	%	CAS #	GHS Classification
Petroleum distillates, hydrotreated heavy paraffinic	30 - 60	64742-54-7	Acute Tox. 4; H332
			Acute Tox. 3; H331
Residual oils (petroleum), solvent dewaxed	15 - 40	64742-62-7	Acute Tox. 4; H332
			Acute Tox. 3; H331
Petroleum distillates, solvent-refined heavy paraffinic	1 - 5	64741-88-4	Acute Tox. 4; H332
			Acute Tox. 3; H331

Components not listed are not physical or health hazards as defined in 29 CFR 1910.1200 (Hazard Communication Standard).

SECTION 4: First aid measures

4.1. Description of first aid measures

Inhalation Remove to fresh air. If breathing is difficult, have a trained individual administer oxygen.

Eyes Use eye wash to remove a chemical from the eye. Flush the affected eye for at least fifteen minutes.

Tilt the head to prevent chemical from transferring to the uncontaminated eye. Seek medical

attention if irritation persists.

Skin Contact Wash with soap and water. Get medical attention if irritation develops or persists. Seek medical

advice if symptoms persist.

SECTION 4: First aid measures

Ingestion Minimal risk of harm if swallowed. Do not induce vomiting. Seek medical attention immediately.

Provide medical care provider with this SDS.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms Not determined

4.3. Indication of any immediate medical attention and special treatment needed

Note to Doctor Aspiration during swallowing or vomiting may severely damage the lungs. If evacuation of stomach

contents is necessary, use method least likely to cause aspiration.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Use alcohol resistant foam, carbon dioxide, or dry chemical when fighting fires. Water or foam may Suitable and Unsuitable cause frothing if liquid is burning but it still may be a useful extinguishing agent if carefully applied **Extinguishing Media:**

to the surface of the fire. Do not direct a stream of water into the hot burning liquid.

5.2. Special hazards arising from the substance or mixture

Fire and/or Explosion Material may be ignited only if preheated to temperatures above the high flash point, for example in

Hazards

a fire.

5.3. Advice for firefighters

Fire Fighting Methods and Do not enter fire area without proper protection including self- contained breathing apparatus and

Protection full protective equipment. Use methods for the surrounding fire.

Hazardous Combustion Carbon monoxide, Smoke

Products

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

General Measures: No health affects expected from the clean up of this material if contact can be avoided. Follow personal protective equipment recommendations found in Section 8 of this SDS.

6.2. Environmental precautions

Do not flush to sewer.

Avoid runoff into storm sewers and ditches that lead to waterways.

Remove from water surface by skimming or with suitable absorbents. Do not use dispersants.

Avoid runoff into storm sewers and ditches that lead to waterways.

6.3. Methods and material for containment and cleaning up

Methods for cleaning up: Prevent the spread of any spill to minimize harm to human health and the environment if safe to do so. Wear complete and proper personal protective equipment following the recommendation of Section 8 at a minimum. Dike with suitable absorbent material like granulated clay. Dispose of according to Federal, State, Local, or Provincial regulations. Used fluid should be disposed of at a recycling center. {EMSFORM 06GHS CLEAN}

6.4. Reference to other sections

Follow all protective equipment recommendations provided in Section 8.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Mildly irritating material. Avoid unnecessary exposure.

7.2. Conditions for safe storage, including any incompatibilities

Store in a cool dry place. Isolate from incompatible materials.

Incompatible materials

See Section 10.

7.3. Specific end use(s)

Motor Oil

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Chemical Name Occupational Exposure Limits Value Oil mist, mineral **OSHA PEL** 5 mg/m3Oil mist, mineral **OSHA PEL** 5 mg/m3

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Chemical Name Occupational Exposure Limits Value Oil mist, mineral OSHA PEL 5 mg/m3Oil mist, mineral **ACGIH TLV-TWA** 5 mg/m35 mg/m3Oil mist, mineral **ACGIH TLV-TWA** 5 mg/m3 Oil mist, mineral **ACGIH TLV-TWA** 10 mg/m3 Oil mist, mineral ACGIH STEL Oil mist, mineral ACGIH STEL 10 mg/m3Oil mist, mineral ACGIH STEL 10 mg/m3

None. **IDLH**

None. OSHA PEL-Skin Notation

8.2. Exposure controls

Engineering Measures Use local exhaust ventilation or other engineering controls to minimize exposures and maintain

operator comfort.

Respiratory protection may be required to avoid overexposure when handling this product. General **Respiratory Protection**

or local exhaust ventilation is the preferred means of protection. Use a respirator if general room

ventilation is not available or sufficient to eliminate symptoms.

None required where adequate ventilation is provided. If airborne concentrations are above the Respirator Type(s)

applicable exposure limits, use NIOSH/MSHA approved respiratory protection.

No special requirements under normal industrial use. **Eve Protection**

Where use can result in skin contact, practice good personal hygiene and wear impervious gloves. **Skin Protection**

Wash hands and other exposed areas with mild soap and water before eating, drinking, and when

leaving work.

Gloves Neoprene, Nitrile

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Liquid **Physical State** Color Brown Odor Mild

Odor threshold Not determined pН Not determined Freezing point Not determined **Boiling Point** Not determined

Flash Point 210 COC Flash Point Method

Evaporation Rate Not determined Upper Flammable/Explosive Not established

Limit, % in air

Lower Flammable/Explosive Not established

Limit, % in air

Flammability (solid, gas) Not applicable < 0.20

Vapor pressure

Vapor Density Not determined

Relative Density 0.89

Solubility in Water Negligible; 0-1% Octanol/Water Partition Not determined

Coefficient

Not determined Autoignition Temperature Decomposition Temperature Not determined

Viscosity(°C) 224.2

9.2. Other information

0.000000 Volatiles, % by weight

SECTION 10: Stability and reactivity

10.1. Reactivity No data available.

10.2. Chemical stability Stable under normal conditions.

10.3. Possibility of hazardous Hazardous polymerization will not occur.

reactions

10.4. Conditions to avoid Temperatures above the high flash point of this combustible material in combination with sparks,

open flames, or other sources of ignition. Moisture (will lead to product performance degradation).

10.5. Incompatible materials Strong oxidizing agents

10.6. Hazardous decompositionCarbon monoxide, Smoke, Carbon monoxide, sulfur oxides, aldehydes, and other petroleum decomposition products in the case of incomplete combustion. Oxides of nitrogen, phosphorus,

products calcium, copper, magnesium, sodium, and hydrogen sulfide may also be present.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Ingestion Toxicity No hazard in normal industrial use. Estimated to be 5.0 g/kg.

Skin Contact This material is likely to be slightly irritating to skin based on animal data. Can cause minor skin

irritation, defatting, and dermatitis.

Absorption Likely to be practically non-toxic based on animal data.

Inhalation Toxicity

No hazard in normal industrial use. Likely to be practically non-toxic based on animal data.

Eye Contact

This material is likely to be non-irritating to eyes based on animal data. No hazard in normal

industrial use.

Sensitization Non-hazardous under Respiratory Sensitization category. No data available to indicate product or

components may be a skin sensitizer.

Mutagenicity No data available to indicate product or any components present at greater than 0.1% is mutagenic

or genotoxic.

Carcinogenicity Not expected to cause cancer. This product meets the IP-346 criteria of <3% PAH's and is not

considered a carcinogen by the International Agency for Research on Cancer.

Reproductive and No data available to indicate product or any components present at greater than 0.1% may cause

Developmental Toxicity birth defects.

Specific target organ Non-hazardous under Specific Target Organ Systemic Toxicity Single Exposure category.

toxicity-Single exposure

Specific target organ Non-hazardous under Specific Target Organ Systemic Toxicity Repeated Exposure category.

toxicity-Repeated exposure

Aspiration toxicity Non-hazardous under Aspiration category.

Other information No data available.

Agents Classified by IARC Monographs

Benzene IARC Group 1
Not applicable IARC Group 2A
Vinyl acetate IARC Group 2B

National Toxicity Program (NTP) Status

Benzene Known Human Carcinogen

Not applicable Reasonably Anticipated To Be A Human Carcinogen

SECTION 12: Ecological information

12.1. Toxicity

Acute Aquatic ecotoxicity: Non-hazardous under Aquatic Acute Environment category.

Chronic Aquatic ecotoxicity: Non-hazardous under Aquatic Chronic Environment category.

12.2. Persistence and degradability

Biodegrades slowly.

12.3. Bioaccumulative potential Bioconcentration may occur.

12.4. Mobility in soil

SECTION 12: Ecological information

This material is expected to have essentially no mobility in soil. It absorbs strongly to most soil types.

12.5. Results of PBT and vPvB assessment

No data available.

12.6. Other adverse effects

Not determined

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Disposal Methods

Dispose of according to Federal, State, Local, or Provincial regulations. Recycle used oil.

Waste Disposal Code(s)

Waste Description for Spent Product

Spent or discarded material is non-hazardous according to environmental regulations.

Contaminated packaging:

Recycle containers whenever possible.

SECTION 14: Transport information

DOT Basic Not classified as hazardous for transport (DOT, TDG, IMO/IMDG, IATA/ICAO).
