

FULL SYNTHETIC MOTOR OILS

MFA OIL EXCEDE Full Synthetic Motor Oils are state-of-the-art, advanced technology motor oils which provide a high level of engine protection, even under the most severe operating conditions. They provide outstanding resistance to high temperature oxidation thickening and are formulated to reduce the likelihood of Low Speed Pre-Ignition. An exceptionally high viscosity index minimizes cold weather oil thickening, which greatly reduces battery drain and engine wear, even at subzero start ups. EXCEDE Full Synthetic Motor Oils meet or exceed GM dexos1[™] Gen 3 specifications for worldwide requirements for all GM automotive gasoline engines currently in use.

Meets requirements for all automotive gasoline engines where a SAE 5W-30/0W-20 API SP and ILSAC GF-6A or previous standards are specified. dexos1[™] Gen 3 supercedes GM6094M and GM4718M.

TYPICAL CHARACTERISTICS

Excede[®] blends the latest advances in technology with the expertise of a company trusted for more than 90 years. The result is a superior lubricant built to withstand the rigors of life, ensuring you get where you need to go. Excede's exceptional quality is guaranteed through a protection plan, backed by lab testing and proven to exceed the demands of high efficiency and super charged gasoline engines alike. No matter how you drive, what you drive or the conditions you drive in, trust Excede to **Give It Everything**.
